Docket Number 12-0598

ALTERNATE ROUTE PROPOSAL OF GREGORY AND THERESA PEARCE

In accordance with Section IV of the Case Management Plan issued by the Administrative Law Judges on December 14, intervenors and Sangamon County landowners, Gregory and Theresa Pearce, hereby submit our proposed alternative routes for the 345 kW transmission line proposed by Ameren Transmission Company of Illinois (“ATXI”) in the above-referenced proceeding. In support of these proposed alternative routes, Gregory and Theresa Pearce state as follows:

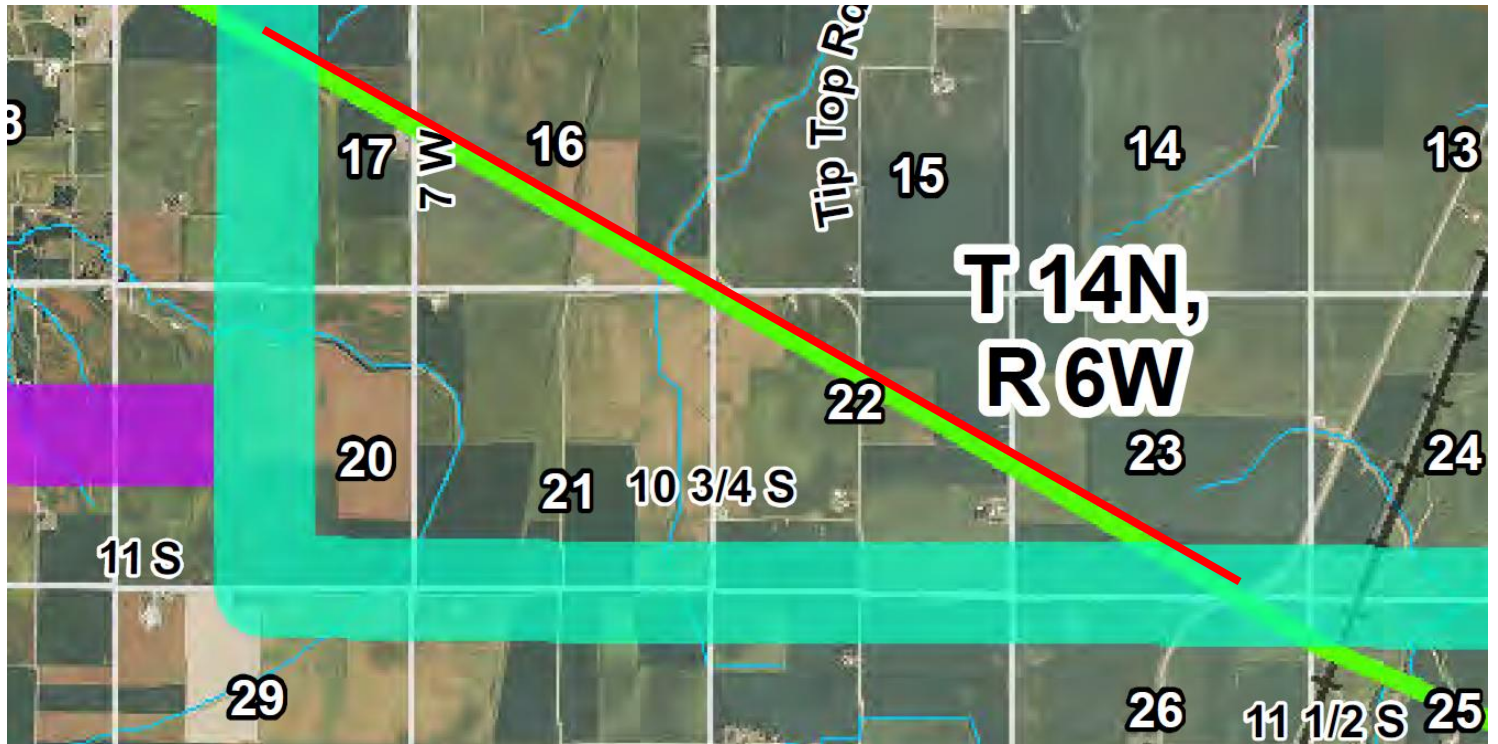

1. The route preferred by Gregory and Theresa Pearce is the Alternative Route submitted by ATXI for that portion of the project that begins in Meredosia, Illinois and runs to Pawnee, Illinois.
2. In the event that the ALJs and the Commission find that ATXI’s Alternate Route should not be utilized, however, Gregory and Theresa Pearce propose that the alternate route depicted on Exhibit A be utilized (“Gregory and Theresa Pearce’s Primary Alternate Route, Sangamon County”). The names and addresses of the landowners that would be impacted by Gregory and

Theresa Pearce's Primary Alternate Route that are not already affected by either ATXI's Primary or Alternative Route are set forth in the attached Exhibit B.

3. In the event that the ALJs and the Commission find that neither ATXI's Alternate Route nor Gregory and Theresa Pearce's Primary Alternate Route should be utilized, Gregory and Theresa Pearce would next propose that the alternate route depicted on the attached Exhibit C be utilized ("Gregory and Theresa Pearce's Secondary Alternate Route, Sangamon County"). The names and addresses of the landowners that would be impacted by Gregory and Theresa Pearce's Secondary Alternate Route are already on the primary line and have been notified by ATXI.

Exhibit A

Gregory and Theresa Pearce's Primary Alternate Route, Sangamon County

Sangamon County, Illinois

The red line indicates Gregory and Theresa Pearce's proposal to use the existing 138 kV transmission line, which is the lime green line. It is owned by ATXI's sister company ACI thus; it would be a cost saving measure.
